Microsoft Ecosystem Health & Risk Assessment Solution

OVERVIEW

As Microsoft 365 administrator, you have a broad range of responsibilities, including achieving and maintaining IT security and compliance across your Microsoft 365 environment. But, as your organization grows and expands, you may find lack visibility into users, groups, permissions, applications and more, resulting in compromised security and potential data loss.

SOLUTION

The **SmartProfiler** for **Microsoft 365** offers critical insight into the health & security of your Microsoft 365 Subscription. Use our automated solutions to find critical and high health and security issues and provide a detailed report. At no point during the assessment will any changes be made to your environment.

Microsoft 365

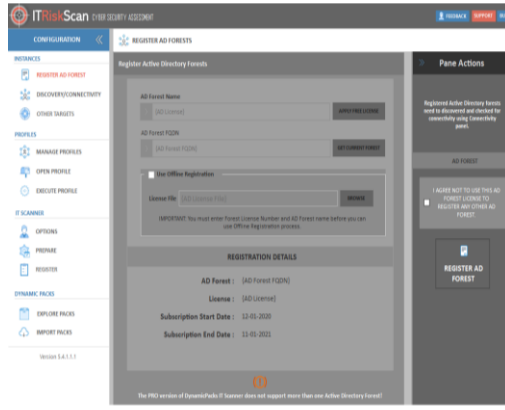

BENEFITS

- Improves regulatory compliance enforcement of internal policies with comprehensive audit trails, access controls and reporting.
- Increases IT efficiency by identifying impending system failures to give you more time for business-critical tasks.
- Ensures health of Microsoft 365 Services such as Teams, SharePoint Online, Exchange Online, Azure AD and other services.
- Continuous Assessment:** Ensure ongoing health of Microsoft 365 components by performing assessment as and when needed.
- 100% Automated:** The first tool to automate all tests in order to minimize manual effort and human errors.

ADVANTAGES

SmartProfiler-Microsoft 365 Assessment can help businesses in every industry and help in finding the health and risk issues:

- Reduce operational expenditures massively
- Reduce risk and security exposure of your Microsoft 365 Services.
- Use IT Profiler software as Safety for your clients.
- Use IT Profiler As A Service for your clients.
- Single-Click Assessment feature for full blown health and security checks.
- Provide issues, impact, severity and recommendations to fix the issues.
- Automated Solution** can quickly uncover hidden issues and generate an actionable report.

- No Database Required
- Single-Click Assessment
- Quick Issues Dashboard
- Generate Actionable Report
- Delegate Technology Assessment

HOW DOES IT WORK?

The **SmartProfiler**-Microsoft 365 Assessment is a software product developed by experienced experts. It collects relevant security and health data from Microsoft 365 Subscriptions.

The **SmartProfiler** is a ready-only product and does not install any components on target systems such as agents. With the help of Single-Click assessment feature, the effort required to run the tool is kept to a minimal.

M365 Security Score Vs CIS Vs SmartProfiler Assessment

- SmartProfiler offers 234 checks for Microsoft 365 in 39 categories.
- M365 Security Score and CIS cannot report on some of the issues for example:

- Identifying mailboxes that have forwarding enabled.
- Dir Sync conflicts and mis-configuration.
- Mailbox Litigation Hold test.
- Mailbox SPAM Test.
- Exchange Online Admin Failure attempts from internal and external and many more.

Automation Rate CIS vs SmartProfiler

114 TOTAL CIS TESTS **129** TOTAL SP TESTS

TEST TYPE	TOTAL TESTS	MANUAL	AUTOMATED	AUTOMATED BY SMARTPROFILER	AUTOMATION RATE
CIS	114	64	50	99	86.84%
SmartProfiler	129	6	123	123	95.35%
