Microsoft Ecosystem Health & Risk Assessment Solution

OVERVIEW

As Office 365 administrator, you have a broad range of responsibilities, including achieving and maintaining IT security and compliance across your Microsoft Office 365 environment. But, as your organization grows and expands, you may find lack visibility into users, groups, permissions, applications and more, resulting in compromised security and potential data loss.

SOLUTION

The **SmartProfiler** for **Microsoft Office 365** offers critical insight into the health & security of your Office 365 Subscription. Use our automated solutions to find critical and high health and security issues and provide a detailed report. At no point during the assessment will any changes be made to your environment.

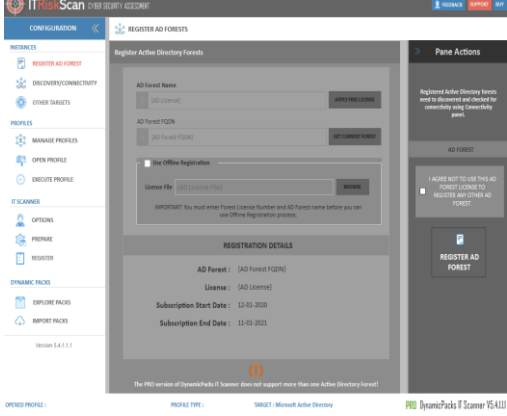

BENEFITS

- Improves regulatory compliance enforcement of internal policies with comprehensive audit trails, access controls and reporting.
- Increases IT efficiency by identifying impending system failures to give you more time for business-critical tasks.
- Ensures health of Office 365 Services such as Teams, SharePoint Online, Exchange Online, Azure AD and other services.
- Continuous Assessment: Ensure ongoing health of Microsoft Office 365 components by performing assessment as and when needed.

ADVANTAGES

SmartProfiler-Office 365 Assessment can help businesses in every industry and help in finding the health and risk issues:

- Reduce operational expenditures massively
- Reduce risk and security exposure of your Microsoft Office 365 Services.
- Use IT Profiler software as Safety for your clients.
- Use IT Profiler As A Service for your clients.
- Single-Click Assessment feature for full blown health and security checks.
- Provide issues, impact, severity and recommendations to fix the issues.
- Automated Solution** can quickly uncover hidden issues and generate an actionable report.

HOW DOES IT WORK?

The **SmartProfiler**-Office 365 Assessment is a software product developed by experienced experts. It collects relevant security and health data from Office 365 Subscriptions.

The **SmartProfiler** is a ready-only product and does not install any components on target systems such as agents. With the help of Single-Click assessment feature, the effort required to run the tool is kept to a minimal.

Office 365 Security Score Vs SmartProfiler Assessment

SmartProfiler for Office 365 Assessment is different from Office 365 Security Score as listed below:

- ✓ We offer 129 checks for Office 365 in 12 categories.
- ✓ Office 365 Security Score cannot report on some of the issues for example:
 - ✓ Identifying mailboxes that have forwarding enabled – To prevent someone from stealing business assets.
 - ✓ Mailboxes that do not have auditing enabled.
 - ✓ Dir Sync conflicts and mis-configuration.
 - ✓ Mailbox Litigation Hold test.
 - ✓ Mailbox SPAM Test.
 - ✓ Exchange Online Admin Failure attempts from internal and external.
 - ✓ Standards and controls followed by CIS Workbench for Office 365 Foundation.
